

**Elmore Planning Commission Meeting**  
**February 5, 2020, 6:00 pm**  
**Town Clerk's Office**

**Attendance:** Michelle Greeson, Don Valentine, Kate Sprague, Glenn Schwartz, Bruce Olsson  
Lea Kilvadyova (LCPC)

**Ongoing Business:**

**Grants:** Yoga and 5k have been submitted.

Park Passes: Glenn will resubmit and get 50 more for the year.

Septic Design: Didn't pass the Select Board.

**Zoning and Subdivision:** approved by SB.

**UVM PLACE:** on hold due to a lack of motivation and time, will discuss again in the spring.

**CVFiber Survey:** Will be distributed at Town Meeting. Also mail with Town Reports or tax bills?

**Energy Plan Objective Review:**

LCPC is working with Efficiency Vermont (EV) on hosting Workshops on energy efficiency and weatherization. LCPC can help facilitate workshops with EV.

Ideas for Elmore involvement:

- We could host one potentially at the Block Party, although it may be hard to get someone to come on a holiday weekend.
- Maybe we could have someone or some company bring an electric car and info to the party.
- Elmore could host a "Button Up" event in the fall, very easy to do, it requires a small amount of organization and promotion .
- Capstone has a "weatherization trailer" that could come to an event and shows examples of options.
- Town Garage rebuild could be done efficiently. Would funding be available for efficient construction? Lea will contact EV and see if they want to collaborate with the current designer of the Town Garage project.
- The Forming of an Energy Committee was suggested, if there is Town interest. Lamoille Action Energy Group is a local regional information exchange. Have Sharon send an Alert to see if anyone in Elmore is interested in joining, post on the website. Lea will write something up about the Energy Group for posting.
- Lea will provide brochures for Town Meeting on energy efficiency.
- Potential for State Park electric car charging station.
